A-65

ALKALINE DEGREASER

Characteristics

Presentation	: Light yellow liquid
Nature	: Sodium hydroxide
pH 10 g/l	: 12.7 ± 0.3
Density at 20°C	: 1.18 g/cm^3
Freezing point	: $- 2^\circ\text{C}$

Applications

C.Q.B. A-65 is a highly alkaline concentrated detergent, used for washing mechanical parts, the underside of industrial vehicles or cleaning the interior of tanks. It is a very effective product for removing oils and greases.

Instructions for use

Dilute C.Q.B. A-65 to obtain a concentration of 1 to 3% at the machine outlet, spray the product, wait a few minutes and rinse with drinking water.

C.Q.B. A-65 complies with the regulations regarding the cleaning of materials that come into contact with food surfaces and the regulations on the Biodegradability of detergents.

Presentation

Polypropylene container of 30, 250 or 1,200 kg .
