AC-210

ANTI-LIMESCALE

Characteristics

<i>Presentation</i>	<i>: Colorless liquid</i>
<i>Nature</i>	<i>: Sequestrants and corrosion inhibitors</i>
<i>PH 10 g/l</i>	<i>: 5.3 ± 0.3</i>
<i>Density at 20°C</i>	<i>: 1,325 g/cm. cubic</i>
<i>Freeze Point</i>	<i>: - 1°C</i>

Applications

C.Q.B. AC-210 is a product specially formulated to prevent limescale deposits in the circuits of washing machines.

How to use

Dilute C.Q.B. AC-210 so that a concentration of 1 g/l is obtained for every 50° of hardness.

Presentation

Polypropylene container of 30 Kgs.
