AM-36

ANTIFOAMING-NON-STICK

Characteristics

Presentation	: Milky liquid
Nature	: Silicone emulsion
Density at 20 °C	: 1.01 g/cm ³

Applications

C.Q.B. AM-36 is a product used to control and inhibit foams generated by detergents.

It is also used as an **asphalt anti-adhesive** as a substitute for diesel in truck boxes or machinery such as pavers, rollers, compactors, etc. since it does not present the biodegradability or flammability problems of diesel.

It is not declared as dangerous for the environment.

Instructions for use

It is applied with a stand-alone sprayer or dispenser at a concentration of 5 to 10%.

Presentation

Polypropylene container of 25, 220 Lts. or 1000 Lts.
