## ***DM-14***

# ***DEGREASER FOR WASHING MACHINES***

### **Characteristics**

|                 |                       |
|-----------------|-----------------------|
| Presentation    | : Light Yellow Liquid |
| Nature          | : Alkaline            |
| PH 10 g/L       | : $13.1 \pm 0.3$      |
| Density at 20°C | : 1.41 g/cm. cubic    |
| Freeze Point    | : - 1°C               |

### **Applications**

C.Q.B. DM-14 is a controlled foam alkaline degreasing detergent used to clean metal parts in industrial washing machine. It does not contain raw materials that hinder their subsequent painting.

### **How to use**

The product is diluted to a concentration of between 1 and 10%. The final finish will vary depending on the state of dirt of the parts and the washing temperature.

### **Presentation**

Polypropylene container of 35, 275 or 1,350 Kgs.
