DS-900

COLD DEGREASER

Characteristics

Presentation	: Blue liquid
Nature	: Petroleum distillates
Density at 20 °C	: 0.85 g/cm. cubic
Flashpoint	: 44 °C

Applications

C.Q.B. DS-900 is a cold degreaser used for cleaning mechanical parts, as well as asphalt agglomeration machines or tanks stained with bitumen. It is used pure or mixed with water or diesel fuel. It is rinsed with water.

Instructions for use

- *Degreasing: Spray C.Q.B. DS-900 pure or diluted 50% in diesel fuel. Leave to act for 10 to 15 minutes and rinse with a jet of water. If you want to mix it with water, prepare a 20% solution.*
- *Cleaning bitumen: Spray pure C.Q.B. DS-900 on the surface to be cleaned. Leave it to act for 20 minutes and rinse with a jet of water. If the layer of bitumen is very thick, repeat the same operation until it is removed.*

Presentation

25 or 220 L polypropylene container.
