LURGORRI

INDUSTRIAL MINERAL ABSORBENT

Characteristics

Chemically inert, non-toxic and non-flammable granular absorbent. Its highly porous surface allows for rapid retention of water, oils, solvents, etc. It maintains its granular state even when saturated, avoiding the risk of falls and facilitating floor cleaning.

Applications

Its high absorption power makes it essential in factories, workshops, warehouses, hotels, schools, etc. The product is normally spread in places where there is a risk of spills.

Presentation

20 kg bag.
